## **MAP Board Member Spotlight: Jenni Marsh United Way of Delaware County, CEO**

**When did you join the MAP board?** 2014

**Why are you on the MAP board?** I was drawn to MAP because of Task Force One—which is all about linking learning with health and prosperity...the very building blocks of a good life. I love that MAP is driven by the will of our community members. We are able to take in the big picture as well as all the moving pieces and find out where the gaps are, how we as a board can help convene people around challenges and opportunities and ultimately advance the work that will really make lasting improvements for our community.

**Favorite Sweet Treat:** A “Beehive” drink from the Caffeinery.

“I love Muncie because of the caring, passionate community members who do so much to make our city great!”

---

**Thanks for reading!**
